Inverters

SuperPower announced at ICUEE '93 that it has added a 1,000-watt inverter to its line of industrial inverters. The company introduced this second inverter as part of its exhibit to attract users who do not need the 2,000 watts of power that the 200i delivers. The 100i unit maintains the industrial design features of the 200i inverter and generates 120-volt AC output from a 12-volt DC battery. Like the 200i, it has a high surge capacity and will start up to 2-3/4 hp motors. *SuperPower.* (612) 943-2270.

Inspection Vehicle

Kraft TeleRobotics presented the M5-A Scout remotely operated vehicle system for inspection and environmental monitoring purposes at Reach-All booth, which also showcased the Aerial Integrated Robotics (A.I.R.) aerial device. In cooperation with Pacific Gas and Electric, the system was developed to meet the increasing demand for greater safety while working in un-

derground utility vaults. Once deployed, the unit is capable of detailed color video inspections from floor to ceiling, pinpoint laser aimed infrared temperature measurements, and atmospheric testing for flammable gasses, toxic gasses and oxygen levels. Additionally, the M5-A Scout can be used while workers are in the vault, to provide a continuous visual and audio link with co-workers at street level. *Kraft TeleRobotics Inc.* (913) 894-9022.

Utility Vehicle

AM General Corp., manufacturer of the civilian version of the battle-proven Hummer, is expanding its line of 4x4s by adding the new Recruit Series line. The series adds two new models to the lineup: a 2-door utility vehicle; and a new 4-door soft top. Both new models offer fulltime 4-wheel drive and 4-wheel independent suspension. They are powered by a GM 6.2-liter V8 diesel and feature three-speed automatic transmission. *AM General Corp.* (219) 284-2929.

Utility Package

Iowa Mold Tooling presented its new Dominator Series of prepackaged, fully integrated service bodies, cranes and air compressors. The Dominator packages consist of a galvanealed Dominator field service body, under-

No job's too big
for a Wright tool.

GET THE WRIGHT TOOLS FOR THE JOB.

Wright gives you complete hand tool coverage for extra heavy duty service. Our hefty 2-1/2" combination wrenches with safe, round-handled design are just one example. Another is our 1-1/2" drive impact sockets through 4-3/4". Of course, we've got all the small stuff, too.

All Wright tools are fully warranted, and come with the best shipping record in the business. Insist on the Wright tools—the most copied designs in the industry.

WRIGHT TOOL
Tools made the Wright way.
